PROFESSIONAL SUMMARY

Recent Bachelor of Engineering in Information Science, graduating with a strong foundation in Software development, Database management and Problem-solving. Passionate about learning new technologies and applying my skills to real-world challenges. Seeking an entry-level role in IT to contribute my technical expertise, and analytical skills to a dynamic team.

EDUCATION

Bachelor Of Engineering-BE: Information Science/Studies

Rao Bahadur Y. Mahabaleswarappa Engineering College - Ballari

Through my Information Science degree, I'm developing critical skills in data structures, algorithms, databases, web development, and software engineering. This rigorous curriculum is preparing me with the strong theoretical background and practical experience needed for impactful roles in the tech industry.

SKILLS

- | | |
|--------------------|-------------------|
| • HTML5 | • CSS3 |
| • Php | • JavaScript |
| • My SQL Workbench | • Power BI |
| • MS Office | • Prompt Engineer |
| • MongoDB | • Vercel |
| • C/C++ | |

PROJECTS

Bill calculator

- I made a simple Bill Calculator webpage using HTML, CSS, and JavaScript. A simple web app to add items with prices, see your bill, add Quantity and calculate the total. You can delete items, reset the bill, and your data stays safe even after reloading the page

Static Website

- This project is a static website built using HTML, CSS, non-JavaScript. A clean, simple and static personal portfolio website showcasing skills, projects, and hobbies. It features a minimal design, responsive layout, and easy navigation.

E-Commerce Website

- I made a simple modern e-commerce website. A seamless shopping experience with features like a product catalog, category filtering, a shopping cart with local storage, and a responsive design. It uses HTML5, CSS3, and JavaScript

CERTIFICATIONS

- Full stack Web development
- Ms office-(AI)
- Machine learning with python
